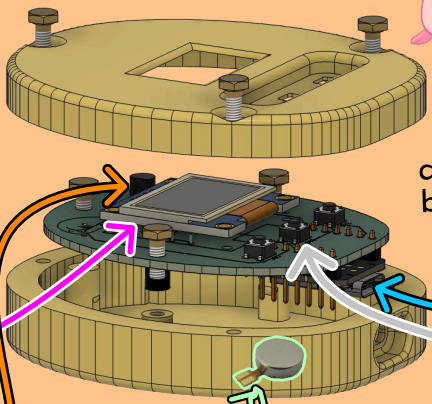
Blobfi

By Anvar

A custom Tamagotchi pet Blobfi (a blobfish!)



0.96" OLED display
This display will show you your Blobfi, it's stats and an image of it

XIAO ESP32 C6
It powers the device and has builtin battery charging

Temp sesnor
Determines if the temperature is too hot or too cold for Blobfi to be happy in

Buttons
With them you will be able to play with your pet, feed it and put it to sleep!

Vibration motor
Makes the device vibrate sometimes, for example when Blobfi wants to eat
